- We seek to avoid disputes by operating in a transparent and fair manner, however, if an issue arises we are committed to resolving disputes through a fair and timely means.
- The initial point of contact should be the relevant Accounts Administrator followed by the Financial Controller. In due course mediation, adjudication etc. may be considered if necessary.

Action Plan for Improvement

Whilst we are pleased that our payment statistics continue to demonstrate an improving trend, we acknowledge that we have fallen slightly short of targets for paying 95% of all invoices within 60 days and meeting all terms in recent reporting periods. We have reviewed matters which are unfortunately causing delays and are taking steps to address these.

Issues Causing Delays

- Receiving invoices without the appropriate supporting detail from the supplier;
- Discrepancies within invoices;
- Supplier changing bank details;
- Internal matching of delivery dockets, with purchase orders and invoices;

Actions to Address

- We highlight any lack of information or discrepancy to the supplier at the earliest opportunity;
- We are encouraging good communication with our supply chain to facilitate faster payment but must remain resolute with our procedures and controls;
- We have reminded site teams of the importance of promptly forwarding delivery dockets to our accounts team and have improved our internal processes for this;
- Frequent review of progress between the Financial Controller and Financial Director with a mechanism to facilitate regular internal reporting to the Managing Director and the wider Board;

Our payment performance is regularly discussed at Board level and there is an embedded culture and commitment of facilitating fair and prompt payment to our entire supply chain.

Henry Brothers Ltd now aims for payments to be made within 30 days where possible and we are on target to exceed 95% of all invoices being paid within 60 days going forward.
